PROJECTS :

E-commerce App - [Shop Karo](#)

Description: Developed a full-stack e-commerce application, **Shop Karo**, designed to provide a seamless online shopping experience. The project emphasizes scalability, responsiveness, and secure user interactions, offering features like product search, cart management, and secure checkout.

The application features -

- User-friendly interface built with React and styled using Bootstrap for responsive design.
- State management powered by Redux-Toolkit, ensuring efficient handling of product data, cart, and user sessions.
- Dynamic routing using React-Router for intuitive navigation.
- Backend APIs built with Node.js and Express for secure and efficient data handling.
- MongoDB database for storing product details, user information, and order history.

Technologies Used: HTML, CSS, Bootstrap, React, Redux-Toolkit, React-Router (Front-end), Node.js, Express, MongoDB (Back-end).
